

2020 Class Descriptions

Stay and Play (Ages 2-3)

Let's make our first camp experience the best it can be! Come make new friends as we learn through imaginative play together. Group time, art, stories, music and movement, and crafts will keep us busy all day. Children in our Stay and Play classes do not have to be toilet-trained.

Mini Monets (Ages 3-4)

Your budding artist will experiment with different styles of art from finger painting to sculpting to making collages and more. At the end of the week, we will exhibit their work with an art show.

Lab Rats (Ages 3-4)

Hands on fun! Science projects will spark learning and discovery in our most junior scientists. Your explorers will have loads of hands-on fun with high touch experiments.

Celebration of Nations (Ages 3-4)

Attention travelers: Pack your passport to learn about the world! Whether by airplane, car, train, or boat ride, we will explore different countries and cultures. We will make our own maps, taste some international cuisine and create our own adventures - one trip at a time.

Movin' and Groovin' (Ages 3-4)

In Movin' and Groovin', your child will have the opportunity to sing, play instruments and investigate various types of music, including rock, pop, classical and more. We will even teach them how to make musical instruments out of common household items.

Little Van Goghs (Ages 5-6)

Your budding artist will experiment with different styles of art from finger painting to sculpting to making collages and more. At the end of the week, we will exhibit their work in an art show.

Snack Tales (Ages 5-6)

Your little chefs will use all of their senses to create recipe books, design aprons, make their own snacks, and decorate cupcakes (on the last day). They will also learn about different foods and taste test lots of healthy ingredients.

Mad Science (Ages 5-6)

Who doesn't love being a mad scientist? From making slime to testing out color mixing, our campers will love this high-touch experience. Our little scientists will make predictions and use every day ingredients to create some science fun.

Fairy Tales Alive (Ages 5-6)

Step into a world of make-believe where our favorite books come alive every day! Campers will create crafts and tell stories using dramatic play, songs, and imagination. Join us as we explore fairy tales old and new with a variety of hands-on STEM activities to keep your camper curious and challenged happily ever after.

Dino Discovery (Ages 5-6)

Campers will love excavating and recreating these extinct creatures! Dinosaurs have piqued children's curiosity and ignited their imagination for years. These prehistoric giants have an amazing story to tell of what life was like on earth millions of years ago. Dino Discovery is the ultimate experience for our little paleontologist!
